MALLORCA
Ca Nostra

Located in the heart of the Mediterranean Sea, with Palma international airport less than two hours by direct flight from the main European capitals, Mallorca is the perfect place to trust the organization of MICE events. An island that, in addition, has earned international recognition for its trajectory and innovation in the tourism sector.

Mallorca is a cosmopolitan and modern proposal in which the experience, the professionalism in the service, the security, the quality of the infrastructures and its excellent accommodation offer make it a leading destination. It also has a business park for research on Biotechnology and Biomedicine (Parc Bit), as well as the University of the Balearic Islands (UIB) that offers R&D activities. Mallorca also houses three combined research schools of recognized prestige in Europe: the Mediterranean School of Advanced Studies (IMEDEA), the School of Interdisciplinary Physics and Complex Systems (IFISC) and the School of Agro-environmental Research and Water Economics (INAGEA).

This is a safe island that is making a strong commitment to sustainability. Mallorca is an affiliate member of the World Tourism Organization (UNWTO) and is part of the network of Sustainable Tourism Observatories of this entity; It also holds the UNWTO.Quest certificate of excellence in governance and is firmly committed to evolving in line with the objectives of the 2030 Agenda in all its dimensions. The island also hosts the Mallorca Environmental Technologies Park (TIRME), a world benchmark in waste management, which promotes circular economy projects and care for the environment, helping to reduce the carbon footprint.
